Albany International Issues 2024 Sustainability Report

March 25, 2025

ROCHESTER, N.H.--(BUSINESS WIRE)--Mar. 25, 2025-- Albany International Corp. (NYSE:AIN) announced today the publication of its annual Sustainability Report, highlighting the company's achievements and commitments to sustainability and innovation in 2024.

"There are a few highlights we are particularly proud of this year," said Gunnar Kleveland, President and CEO of Albany International Corp, "such as our participation in World Engineering Day for Sustainable Development, which showcases our history of innovation and how it drives sustainability and performance for our customers. We also report on our operational sustainability and community engagement initiatives, which we believe will lead to a more sustainable and prosperous future for all of our stakeholders."

"Sustainability is one of our core values not just because it is important for our customers, employees and other stakeholders, but also because it is a driver of innovation, resilience, and business value. Through setting ambitious goals and making concrete progress, such as through participation in a US virtual power purchase agreement to tackle approximately 25% of our emissions, we are pushing ourselves to ever higher standards, and we are confident that our innovative approaches will continue to drive positive change," said Anna Yates, Sustainability and EHS.

Albany International believes in the importance of transparency, accountability and open communication. Our Sustainability Report reflects our dedication to sharing our progress, areas of opportunity, and future plans. We invite feedback and collaboration to continually improve our sustainability practices.

The report is available for viewing and download at www.albint.com/sustainability.

About Albany International Corp.

Albany International is a leading developer and manufacturer of engineered components, using advanced materials processing and automation capabilities, with two core businesses.

- Machine Clothing is the world's leading producer of custom-designed, consumable belts essential for the manufacture of paper, paperboard, tissue and towel, pulp, non-wovens and a variety of other industrial applications.
- Albany Engineered Composites is a growing designer and manufacturer of advanced materials-based engineered components for demanding aerospace applications, supporting both commercial and military platforms.

Albany International is headquartered in Rochester, New Hampshire, operates 30 facilities in 13 countries, employs approximately 5,400 people worldwide, and is listed on the New York Stock Exchange (Symbol: AIN). Additional information about the Company and its products and services can be found at www.albint.com.
