

Albany International Issues 2024 Climate Report

October 7, 2025

PORTSMOUTH, N.H.--(BUSINESS WIRE)--Oct. 7, 2025-- Albany International Corp. (NYSE: AIN) today announced the release of its **2024 Climate Report**, highlighting progress in sustainability, innovation, and climate-related disclosures.

"Beyond meeting disclosure requirements, we're advancing our role in building a more sustainable future," said Gunnar Kleveland, President and CEO. "This report reflects our commitment to integrating climate considerations into our business strategy. Our focus on product-level emissions is a powerful lever for innovation, accountability, and impact across our value chain."

"Understanding the full lifecycle impact of our products is essential to driving meaningful change," added Anna Yates, Sustainability and EHS. "Our emphasis on Product Carbon Footprint is helping us uncover new opportunities to design smarter, reduce emissions, and support our customers' climate goals. It's a foundational step toward a more sustainable and resilient future."

Albany International is committed to transparency, accountability and open communication. This Climate Report reflects our dedication to sharing our progress, opportunity for improvement, and our commitment to science-based innovation. We invite feedback and collaboration to further enhance sustainability practices.

The report is available for viewing and download at www.albint.com/sustainability.

About Albany International Corp.

Albany International is a leading developer and manufacturer of engineered components, using advanced materials processing and automation capabilities, with two core businesses.

- Machine Clothing is the world's leading producer of custom-designed fabric and high-speed process belts critical in the manufacture of paper, paperboard, tissue and towel, pulp, non-wovens and a variety of other industrial applications.
- Albany Engineered Composites is a leader in innovative composite technology solutions and manufacturer of engineered components, structures and assemblies for demanding aerospace and defense applications. AEC provides highly engineered, advanced composite structures and assembly solutions to customers and platforms in the commercial and defense markets, as well as for space-launch vehicles and the emerging advanced air mobility market.

Albany International is headquartered in Portsmouth, New Hampshire, operates 30 facilities in 13 countries, employs approximately 5,400 people worldwide, and is listed on the New York Stock Exchange (Symbol: AIN). Additional information about the Company and its products and services can be found at www.albint.com.
