# **Albany International Reports Third-Quarter 2024 Results**

ROCHESTER, N.H.--(BUSINESS WIRE)--October 30, 2024 — Albany International Corp. (NYSE:AIN) today reported operating results for its third quarter of 2024, which ended September 30, 2024.

"I am pleased with the overall results of the quarter as we focused on operational excellence evidenced by strong results at Machine Clothing and Free Cash Flow generation of \$78 million year-to-date. We are addressing the issues announced earlier this month, with specific emphasis on our Salt Lake Facility. Revenues of \$298 million was up \$17 million or 6.1% over prior year," said President and CEO, Gunnar Kleveland.

"In Machine Clothing, revenues of \$183 million grew year-over-year, driven by our Heimbach acquisition. Our global order backlog remains stable and we continue to make progress with the integration at Heimbach.

"In Engineered Composites, we recorded revenues of \$115 million, while our profitability was impacted by our previously announced EAC adjustments. Our backlog is well over \$1 billion and longer term we continue to see growth in our defense and commercial programs" concluded Kleveland.

### For the third quarter ended September 30, 2024:

- Net revenues were \$298 million, up 6.1%, or 5.8% after adjusting for currency translation, when compared to the prior year. MC's net revenues increased 9.9%, reflecting a full quarter of Heimbach Net revenues, which was partially offset by lower net revenues in the rest of the segment due to decreased sales in packaging and publication grades. AEC's net revenues were largely in line with the prior year, increasing 0.7%, primarily driven by growth on certain commercial and space programs, which was partially offset by lower revenues on CH-53K and other defense programs.
- Gross profit of \$90 million was 11.2% lower than the \$102 million reported for the same period of 2023; overall gross margin declined nearly 6.0% driven by changes in the estimated profitability of long-term contracts at AEC.
- Selling, General, and Administrative (SG&A) expenses were \$52 million, largely in line with prior year.
- Operating income was \$25 million, compared to \$40 million in the prior year, the result of lower Gross profit at AEC and increased Technical, Research and Restructuring expenses at MC.
- Effective tax rate for the quarter was 6.6%, compared to 25.3% for the third quarter of 2023. The 2024 rate was lower primarily due to favorable discrete tax adjustments in the current period exceeding favorable discrete tax adjustments in the prior period.
- Net income attributable to the Company was \$18 million (\$0.57 per share), compared to \$27 million (\$0.87 per share) in the third quarter of 2023; Adjusted diluted earnings per share (or Adjusted diluted EPS, a non-GAAP measure) was \$0.80 per share in the third quarter of 2024, compared to \$1.02 per share in the third quarter of 2023. Adjusted EBITDA (a non-GAAP measure) was \$54 million, compared to \$65 million in the third quarter of 2023, a decrease of 17.2%.

Please see the tables below for a reconciliation of non-GAAP measures to their comparable GAAP measures.

# Outlook for Full-Year 2024

The company is updating its guidance for the full year of 2024 as follows:

- Total company revenue between \$1.23 billion to \$1.25 billion;
- Effective income tax rate of approximately 27%;
- Capital expenditures in the range of \$85 to \$90 million;
- Adjusted diluted earnings per share between \$3.10 and \$3.30;
- Total company Adjusted EBITDA between \$237 million to \$247 million;
- Machine Clothing revenue between \$745 million to \$755 million;
- Machine Clothing Adjusted EBITDA between \$238 million and \$243 million;
- Albany Engineered Composites revenue between \$485 million to \$495 million; and
- Albany Engineered Composites Adjusted EBITDA between \$68 million to \$73 million.

| (in thousands, except for net leverage ratio)     | S  | eptember 30, 2024 |
|---|----|-------------------|
| Net debt (non-GAAP)                               | \$ | 234,972           |
| Trailing twelve months Adjusted EBITDA (non-GAAP) |    | 257,029           |
| Net leverage ratio (non-GAAP)                     |    | 0.91              |

(a) Foreign currency revaluation (gains)/losses represent unrealized gains and losses arising from the remeasurement of monetary assets and liabilities denominated in non-functional currencies on the balance sheet date.

(b) Calculated as amounts incurred during the twelve months ended December 31, 2023, less those incurred during the nine months ended September 30, 2023, plus those incurred during the nine months September 30, 2024.

The tables below provide a reconciliation of forecasted full-year 2024 Adjusted EBITDA and Adjusted Diluted EPS (non-GAAP measures) to the comparable GAAP measures.

(d) Due to the uncertainty of these items, we are unable to forecast the full year impact for 2024. Amounts above represent actual results for the nine months ended September 30, 2024.

(e) Calculations based on weighted average shares outstanding estimate of approximately 31.3 million

### About Albany International Corp.

Albany International is a leading developer and manufacturer of engineered components, using advanced materials processing and automation capabilities, with two core businesses. Machine Clothing is the world's leading producer of custom-designed, consumable belts essential for the manufacture of paper, paperboard, tissue and towel, pulp, non-wovens and a variety of other industrial applications. Albany Engineered Composites is a growing designer and manufacturer of advanced materials-based engineered components for demanding aerospace applications, supporting both commercial and military platforms. Albany International is headquartered in Rochester, New Hampshire, operates 32 facilities in 14 countries, employs approximately 6,000 people worldwide, and is listed on the New York Stock Exchange (Symbol AIN). Additional information about the Company and its products and services can be found at www.albint.com.

#### Non-GAAP Measures

This release, including the conference call commentary associated with this release, contains certain non-GAAP measures, that should not be considered in isolation or as a substitute for the related GAAP measures. Such non-GAAP measures include net revenues and percent change in net revenues, excluding the impact of currency translation effects; EBITDA, Adjusted EBITDA, and Adjusted EBITDA margin; Net debt; Net leverage ratio; and Adjusted diluted earnings per share (or Adjusted Diluted EPS). Management believes that these non-GAAP measures provide additional useful information to investors regarding the Company's operational performance.

Presenting Net revenues and change in Net revenues, after currency effects are excluded, provides management and investors insight into underlying revenues trends. Net revenues, or percent changes in net revenues, excluding currency rate effects, are calculated by converting amounts reported in local currencies into U.S. dollars at the exchange rate of a prior period. These amounts are then compared to the U.S. dollar amount as reported in the current period.

EBITDA (calculated as net income excluding interest, income taxes, depreciation and amortization), Adjusted EBITDA, and Adjusted Diluted EPS are performance measures that relate to the Company's continuing operations. The Company defines Adjusted EBITDA as EBITDA excluding costs or benefits that are not reflective of the Company's ongoing or expected future operational performance. Excluded costs or benefits, such as restructuring costs, foreign currency revaluation gains and losses, and costs related to strategic, acquisition, integration and other transition-related initiatives that the Company may take, do not consist of normal, recurring cash items necessary to generate revenues or operate our business. Adjusted EBITDA margin represents Adjusted EBITDA expressed as a percentage of net revenues.

The Company defines Adjusted Diluted EPS as diluted earnings per share (GAAP), adjusted by the after tax per share amount of costs or benefits not reflective of the Company's ongoing or expected future operational performance. The income tax effects are calculated using the applicable statutory income tax rate of the jurisdictions where such costs or benefits were incurred or the effective tax rate applicable to total company results.

The Company's Adjusted EBITDA, Adjusted EBITDA margin, and Adjusted Diluted EPS may not be comparable to similarly titled measures of other companies.

Net debt aids investors in understanding the Company's debt position if all available cash were applied to pay down indebtedness.

Net leverage ratio informs the investors of the Company's financial leverage at the end of the reporting period, providing an indicator of the Company's ability to repay its debt.

We encourage investors to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.

#### Forward-Looking Statements

This press release may contain statements, estimates, guidance or projections that constitute "forward-looking statements" as defined under U.S. federal securities laws. Generally, the words "believe," "expect," "intend," "estimate," "anticipate," "project," "will," "should," "look for," "guidance," "guide," and similar expressions identify forward-looking statements, which generally are not historical in nature. Because forward-looking statements are subject to certain risks and uncertainties (including, without limitation, those set forth in the Company's most recent Annual Report on Form 10-K or Quarterly Report on Form 10-Q), actual results may differ materially from those expressed or implied by such forward-looking statements.

Forward-looking statements in this release or in the webcast include, without limitation, statements about macroeconomic conditions, including inflationary cost pressures, as well as global events, which include but are not limited to

geopolitical events; paper-industry trends and conditions during the current year and in future years; expectations in the current period and in future periods of revenues, EBITDA, Adjusted EBITDA (both in dollars and as a percentage of net revenues), Adjusted Diluted EPS, income, gross profit, gross margin, cash flows and other financial items in each of the Company's businesses, and for the Company as a whole; the timing and impact of production and development programs in the Company's AEC business segment and the revenues growth potential of key AEC programs, as well as AEC as a whole; the amount and timing of capital expenditures, future tax rates and cash paid for taxes, depreciation and amortization; future debt and net debt levels and debt covenant ratios; and changes in currency rates and their impact on future revaluation gains and losses. Furthermore, a change in any one or more of the foregoing factors could have a material effect on the Company's financial results in any period. Such statements are based on current expectations, and the Company undertakes no obligation to publicly update or revise any forward-looking statements. Statements expressing management's assessments of the growth potential of its businesses, or referring to earlier assessments of such potential, are not intended as forecasts of actual future growth, and should not be relied on as such. While management believes such assessments to have a reasonable basis, such assessments are, by their nature, inherently uncertain. This release and earlier releases set forth a number of assumptions regarding these assessments, including historical results, independent forecasts regarding the markets in which these businesses operate, and the timing and magnitude of orders for our customers' products. Historical growth rates are no guarantee of future growth, and such independent forecasts and assumptions could prove materially incorrect in some cases.
